

PARAGON *Proudly Presents*
THE SIERRA® BACKPACK VACUUM
Manufactured by Pro Team

COMES COMPLETE WITH THE FOLLOWING:

Wheeled combination hard/carpet floor tool
Electronic equipment cleaning kit
Flexi-clean 24" crevice tool
High Filtration Discs (2 pk)
Intercept micro filter bags
Telescoping 24-40" wand
Adjustable angle adapter
2 1/2" rectangular duster
Chrome curved wand
Mesh attachment bag
36" extension wand
5" upholstery tool
Long dust brush
Crevice tool
Adapter cuff

The unit includes the canister with backpack harness but it also has wheels so it can be used as a stand-up vacuum as well. It weighs only 9 lbs. and can be used comfortably for hours if necessary.

With the big emphasis on *True IPM* and the big explosion in **bedbug** infestations, a good multi-stage filter equipped vacuum is a necessity for many PMPs. The **SIERRA®** has a filtration efficiency of 99.79%. Every article written about **bedbugs** in the past few months cites the necessity of using a vacuum, and it needs to have all of the attachments to get into the nooks, cracks & crevices and the **SIERRA®** provides all of this.

Advantages

- **Environmentally Safe** – Chemicals not necessary in many cases.
- **Immediate Results** – Instant capture of insect pests and allergens.
- **Leaves Nothing Behind** – Removes cast skins, fecal matter, dead and live specimens.
- **Versatile** – Removes wide range of pests including spiders, cockroaches, wasps, bees, ants and **bedbugs** just to name a few.

they're not just dead...

With the **SIERRA®**

they're dead AND gone.
